

**Goals from last week:**

BDD and testing

**What we've done:**

1. Created behavioral testing scenarios for all user stories
2. Updated trello board

**What worked:**

Meeting together during class time, using discord, splitting the work between each of us, having a plan ready early in the week

**What we learned:**

Learned about unit tests, test driven development, and behavior driven development  
Learned what keywords to use when creating tests and to store in .feature files

**Where we had trouble:**

- Uploading files to github
- Figuring out Scenarios
- Thinking about the implementation of features

**Where we're stuck:**

We are not currently stuck on anything, our strategies are working well for keeping pace

**Agenda for next meeting:**

Catching up and looking ahead

**Meeting next week:**

Tuesday we will plan our meeting for Thursday
