Goals from last week:
Catching up and looking ahead

What we've done:
1. Created base files for notes app
2. Started working on individual files and features
3. Started implementing the css
4. Updated trello board

What worked:
Meeting together during class time, using discord, splitting the work between each of us, getting started early in the week

What we learned:
Learned how to work with associated models and user accounts in a web application with FLASK
Learned how to add in comments to a note

Where we had trouble:
Had some trouble uploading to github again, going between master and main branch, got it all sorted out in the end

Where we're stuck:
We are not currently stuck on anything, our strategies are working well for keeping pace

Agenda for next meeting:
Adding additional features and ensuring the app is running smoothly

Meeting next week:
Tuesday we will plan our meeting for Thursday
